Professional Experience

DB Schenker India Pvt. Ltd.

Service Manager

April 2022 – Dec 2025

- Directed a high-performing team of 28 Service Desk Analysts, consistently achieving a 98% SLA compliance rate while maintaining a 97% Customer Satisfaction (CSAT) score
- Managed the end-to-end lifecycle of service requests and incidents, ensuring all tickets were resolved within agreed-upon
- Implemented ServiceNow automation, reducing monthly ticket volume from 25,000 to 17,000 (32% decrease) and improving response times
- Managed end-to-end major incident management, ensuring rapid resolution of critical outages impacting business operations
- Chair monthly executive reviews with DB Schenker management, presenting service delivery metrics and improvement initiatives
- Oversee vulnerability management, threat detection, and problem management through daily/weekly governance calls
- Spearheaded the transition to ITIL v4 standards, maturing Incident, Problem, and Change Management processes to reduce recurring issues by 15% across the enterprise.
- Develop and implement Service Improvement Plans (SIPs) enhancing service quality and operational efficiency

Kearney India

Technical Analyst (ITSD Lead)

Dec 2018 – Apr 2022

- Led 18-member team managing IT Service Desk operations and user escalations for global management consulting firm
- Managed major incidents, problem management, and change platform across multiple global locations
- Supervised O365 technical support for 200+ partners, principals, and VPs, ensuring business continuity
- Conducted weekly and monthly incident audits, successfully reducing ticket backlogs by 40%
- Administered Active Directory user accounts, groups, and access management based on organizational units
- Coordinated P1 incidents with technical teams and vendors, ensuring minimal business impact
- Maintained SLA compliance through proactive monitoring and stakeholder communication during major outages

Ciena India

IT Analyst

Oct 2017 – Dec 2018

- Managed incident and problem processes to restore services quickly while maintaining optimal service quality
- Generated proactive problem tickets based on event analysis and trending patterns
- Conducted daily bridge calls with application owners on change requests, severity issues, and tool alerts
- Maintained documentation and knowledge articles for streamlined workflow and knowledge transfer
- Generated process metrics (KPIs) and performance dashboards for management reporting
- Collaborated with business owners and technical teams to minimize service impact and meet SLA targets

Wipro Infotech

IT Administrator

Dec 2015 – Oct 2017

- Supported Indus Towers Limited and GMR Delhi Airport for hardware/software incident resolution
- Administered Active Directory user accounts and groups, ensuring proper access controls
- Prepared daily incident reports and checklists using BMC Remedy ticketing tool
- Maintained stakeholder communication during major outages and service disruptions

Professional Development and Teaching Engagement

Self Employed

Nov 2014 – Dec 2015

- Prepared for competitive government examinations, strengthening analytical thinking, problem-solving, and time management skills
- Taught school-level students (Maths/Science/Computer basics), improving communication and mentoring abilities
- Designed structured lesson plans and tracked student progress and outcomes
- Maintained disciplined study schedules alongside teaching responsibilities

Key Achievements

Cloud Migration: IBM DC Singapore Closure: Led migration of 300+ APAC servers and 130+ applications to Azure cloud, delivering \$2.2M cost savings. Received Spotlight Award and Customer Recognition Award

Cost Optimization: Monitored cloud infrastructure via Dynatrace and optimized unused SKUs, achieving €40,000 monthly savings without performance impact

Process Automation: Implemented ServiceNow automation reducing monthly ticket volume from 25,000 to 17,000 (32% reduction)

Network Migration: Successfully migrated 40+ APAC sites to Meraki SDWAN, generating €30,000 monthly cost savings

Innovation: Awarded Immediate Impact Award for testing and deploying Microsoft Collaboration tools in production

Major Projects

Accelerate2Cloud: Managed multimillion-dollar APAC server migration project: 450+ servers and 180+ applications to Azure cloud. Utilized Cloudamize for application assessment and network protocol mapping. Coordinated ASR, WAF, Oracle RAC migrations ensuring zero rollbacks

Meraki & SDWAN: Led migration of 40+ non-critical sites to globally managed Meraki with 24/7 monitoring. Developed migration process, established timelines, and coordinated with Network and Finance teams for seamless transitions

Education

RGPV University, Bhopal

Aug 2010 - Sep 2014

Bachelor of Engineering (Information Technology)
